The Doc reckons the case puzzles him, only I reckon it happened by of over doing it at P.T. Tho' he is hard to tell anything.

Well Murray Old son my Commission eventually caught up with me & 3 weeks later low & Belhodel are 7/0. Good thing, bags of money.

Heck Park arrived in last night not looking too pleased about his posting.

Also Hal, Facius & Pember are about all you know that are here. Heck just dropped in & is on his way for 7 days leave. A lucky man what.

Just decided to crack a bottle. So I will have one for you.

Well Murray remember me to your Wife and Gertrude also to

Dear Murray,

Sony I haven't replied to your letter before, but the last few weeks up here I have been kept rather busy. They try to cram everything into you in the shortest possible time. They really are true you know. When I leave this place & I mean when I should be fit to ^{be} Captain on any Vessel. It's a very good course but too much theory to it for me. You know they work us until we just about drop. If we fly all night they want us for lectures 7.30am next morning or the same morning.

the boys down your way.
for now cherie all the
best of luck.

Alan

if that's ^{the} case (2)

Had a letter from Ron & he
was waiting on me from you. he
seems to be quite happy about
his posting & by the way he is
going I won't be startled
before he finishes. Won't I
get it when we meet up, he'll
be telling me to get some ink!
We haven't done anything these
days you know unless we have
been up north, that's what they
think here anyway.

I have been off two Sundays
since arriving & spent them
both in Toronto the local town
Not a bad spot at all a
very pretty place & when summer
gets here it will be beautiful.

I have been grounded for a
few days under observation. Strained
the muscles of my belly.
